

Abraham Elebute

Frontend Software Engineer

+234 816 770 9844 • abrahamelebute.com • elebuteimisioluwa@gmail.com

Professional Summary

Frontend Software Engineer with 6+ years of experience building scalable web and mobile applications using **React**, **Next.js**, **TypeScript**, and **JavaScript (ES6+)**. Proven ability to deliver enterprise SaaS solutions for logistics, fintech, and e-commerce domains. Expert in **performance optimization**, **responsive UI development**, **REST/GraphQL API integration**, and **scalable component architecture**. Skilled in modern tooling (Webpack, Vite), **Redux/Zustand state management**, unit testing (Jest, Testing Library), and **CI/CD pipelines**. Passionate about writing clean, maintainable code and improving user experience to drive business impact.

Experience

Insta Delivery – Frontend Software Engineer & QA Team Lead

Sept. 2024 – Present | Lekki Lagos, Nigeria (Remote)

- Architected and implemented an enterprise logistics management platform with React/Next.js, supporting multi-vendor operations and real-time tracking for deliveries annually
- Implemented Google Maps Platform, Google Places Autocomplete, wallet systems, payment integration, authentication, and location validation to improve delivery accuracy and user experience.
- Served as QA Team Lead for a while, leading regression testing, UAT, bug validation, and release verification to ensure production-quality software.
- Collaborated in a cross-functional Agile team to design user interfaces for customers, vendors, riders, and admins, improving end-user UX and reducing onboarding time by 40%.

Tech Stack: React, Next.js, TypeScript, Redux, Tailwind CSS, REST/GraphQL, Jest, Playwright, Git

Education

Federal Polytechnic Ado-Ekiti
NDs (Electrical Engineering)
2022–2024

Ladoke Akintola University of
Technology
B.Sc. Computer Science

Skills

Frontend Software Engineering
Mobile Application Development
UI/UX Design
Component-Based Architecture
REST API Integration
Responsive Web Design
Performance Optimization
QA Engineering
Manual & Regression Testing
Agile/Scrum Development
UX Ui Design

Buabed Banafa Perfumes Industries (UAE) – Frontend Software Engineer

Nov. 2024 | Dubai, United Arab Emirates (Contract)

- Developed responsive e-commerce web interfaces (React/Next.js) for a luxury fragrance retailer, optimizing the online storefront for desktop and mobile.
- Built and maintained 50+ reusable UI components (catalog, product detail, cart) with modern design, improving development speed by 30% and ensuring consistent branding.
- Implemented performance enhancements (code-splitting, image lazy-loading) that boosted Google PageSpeed score from 65 to 92 and reduced load time by 45%.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Redux Toolkit, Git.

Experience

Jentry International – Frontend Software Engineer & Product Contributor

Nov. 2023 – Present | Ekiti State (Full Time)

- Contributed to the development of **ROBUS** and **RESS** — internal systems for hardware/software solutions — using React, ensuring scalable and maintainable codebase.
- Collaborated on product planning and architectural design decisions in Agile sprints, bridging communication between engineers, designers, and stakeholders.

Tech Stack: React, Next.js, TypeScript, Tailwind CSS, REST APIs, Git

TradeOPM – Frontend Software Engineer

Nov. 2022 – Oct. 2023 | Uk (Remote)

- Built responsive dashboards and account management interfaces for a proprietary trading platform supporting trader evaluations and funded trading accounts.
- Integrated REST APIs to display trading statistics, account information, and user management features while ensuring a seamless user experience.
- Developed reusable frontend components and optimized application performance for scalable financial applications.
- Worked closely with cross-functional teams to deliver secure, production-ready software.

Tech Stack: React, Next.js, TypeScript, Tailwind CSS, REST APIs

ISDS Services – Frontend Software Engineer

Oct. 2023 | Lagos, Nigeria (Remote)

- frontend development of enterprise web applications using React, Next.js, TypeScript, and Tailwind CSS, delivering scalable and reusable solutions across multiple products.
- Architect and implement secure, responsive, and high-performance user interfaces while integrating REST APIs, authentication systems, and third-party services.
- Resolved 120+ code quality issues, significantly reducing technical debt, improving maintainability, and enhancing overall application performance.
- Collaborate with product managers, designers, backend engineers, QA, and DevOps teams to deliver production-ready software using Agile methodologies.

Tech Stack: React, Next.js, Redux Toolkit, REST APIs, Git, Axios

Experience

Mango Entertainment – Frontend Software Engineer & React Native Developer

Nov. 2023 – Present | Orlando, USA (Remote)

- Developed web and mobile features for a global social entertainment platform supporting short-form videos, livestreaming, messaging, virtual gifts, and creator engagement.
- Built responsive user interfaces using React, Next.js, and React Native while integrating APIs for authentication, content management, and social interactions.
- Collaborated with designers and backend engineers to deliver engaging, high-performance user experiences across web and mobile platforms.
- Improved SEO, application performance, and code maintainability through modern frontend optimization techniques.

Tech Stack: Next.js, React Native, TypeScript, Tailwind CSS, REST APIs

Punch Nigeria Limited – IT Support / Electrical Engineering Intern

Aug. 2023 – Lagos – Ibadan Expy (On Site)

- Provided technical support for computer systems, IT infrastructure, and electrical equipment at the company's headquarters.
- Assisted with system troubleshooting, hardware maintenance, technical documentation, and infrastructure support.
- Collaborated with engineering and IT teams to ensure reliable day-to-day technology operations.

Tech Stack: Windows, Networking, Hardware Support, Technical Documentation

Contract Frontend Developer

Jul. 2020 – Oct. 2022

- Developed responsive, SEO-optimized web interfaces using Next.js and modern frontend technologies.
- Built reusable, accessible, and maintainable UI components for client projects.
- Improved application performance through code optimization and responsive design techniques.

Tech Stack: Next.js, React, TypeScript

Awards

Responsive Web Design Certification freeCodeCamp

Completed the Responsive Web Design Certification through freeCodeCamp, gaining hands-on experience in building accessible, responsive, and modern websites using web technologies, accessibility best practices, and real-world web development projects.

Community Projects

DEVDOTDIS – Team Lead

Founded a developer team focused on solving real-life problems through software. Coordinated collaboration, ideation, and project execution across various domains including education, commerce, and productivity tools.
